

JLG Forklift Part

JLG Forklift Parts - In the late 1960's John L. Grove, with his wife Cora embarked on a cross country excursion in their RV. Newly retired, after spending many years working with his brother to manufacture their crane business into an market leader, John had no idea that momentous trip would permit JLG Industries, Inc to emerge. The world leader of mobile aerial work platforms and precision material handling equipment was the end consequence of a road expedition.

All through their journey, John reacquainted himself with former business connections along the way. In combination with these conversations and a noteworthy event; two workers were tragically electrocuted on scaffolding when the Groves were passing through the Hoover Dam. John discovered an infinite marketplace for a product that could promptly and securely lift individuals in the air to accomplish upkeep and other building services.

Upon returning from their travels, John formed a joint venture with two friends and obtained a metal fabricating company in McConnellsburg, Pennsylvania. In 1970, starting operations with a crew of twenty personnel, they built and sold the first JLG aerial work platform. The business incorporates many of the basic design essentials of that original lift into current versions.

Since then, JLG Forklifts have come a long way from when Mr. John L. Grove came back from his fatefull cross-country journey and since the first JLG aerial platform entered the marketplace. As of today, the company has extended itself into several global markets and continues to cultivate new equipment to guarantee that consumers are able to become safer and more well-organized within their workplace.
