

Forklift Electrical Parts

Forklift Electrical Parts - Lift trucks and different lift trucks could have specific labels utilized in certain hazardous locations. The mark denotes that this specific model of forklift meets the minimum standards of ANSI/UL 553 for electric forklifts or ANSI/UL 558 for internal combustion engine forklifts.

The use for labels utilized for lift forklifts may be found in National Fire Protection Association NFPA 505 - Powered Industrial lift trucks including: Type Designations, Areas of Use, and Maintenance and Operation. Consult your local insurance carrier and Fire Marshall for further info regarding the approved uses of industrial powered lift trucks in your application.

If the specific lift truck meets the outlined criteria, labels may be attached. A labeled forklift will show the type of designation located on the nameplate and would have a correctly corresponding label placed.
