

Clark Forklift Part

Clark Forklift Parts - Presently, there are at least 350,000 Clark lift trucks performing worldwide, and in excess of 250,000 operating in North America alone. With five main lines across the world, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, covers more than 120,000 specialized items intended for 20 unique models of lift trucks and automated equipment. Your local Clark Seller is your complete source for availability of all your parts needs supplied by Clark Totalift.

Clark has a phenomenal Parts Supply team. The items warehouses are conveniently positioned in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their buyers and their sellers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Driven to supply the highest level of value and service to our users, Clark remains on the leading edge when it comes to improving output and benefiting performance.

Internationally, Clark has one of the most impressive supplier support networks. With over 550 locations globally, dealer representation in over 80 countries and 230 locations in North America, their high level of dedication to their consumers predominates the materials handling industry.

Clark proudly remains an progressive leader of the industrial equipment industry, revolutionizing protection features such as the worker restraint system. This exceptional commitment to safety is currently a standard feature on every forklift.

Clark has a unrelenting objective to have the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be internationally certified with quality standard ISO 9001 in all of its manufacturing facilities. Furthermore, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any environmental limitations, thus placing them in a dominant market position.

Clark has preferred the particularly economical and beneficial structure of "Lean Production" for its assembly facilities and application of resources. This system was established to acknowledge the most effective approaches of production facility management and ensuring maximum efficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers join together to upgrade the proficiency and excellence of their merchandise while minimizing expenses. The contemporary value engineering program combines modern product improvement and provides improved client support and service within the industry.
